Aloha Fellow Voters of Hawaii,

My name is Dr. Brian G. Cole, and I am a new face in the Democrat Party running for The U.S. Congress. I am an Internal Medicine physician, and a Yale University Alumnus practicing on Maui and The Norwegian Star. It has always been my dream to become a U.S. Congressman, and I am very excited to be able to serve the voters in our extremely dynamic political arena. Let me briefly tell you about some of my platform issues, in addition to being a New Democrat.

- I support Education in the forms of Higher Teacher Pay
- I support Higher Education in that I will fight for more Federal Funds for Hawaii University Students' Grants and Scholarships
- I support cutting of regressive taxes on food, gasoline and clothes
- I support and will fight for more funds for Seniors Citizens Prescription Drug Programs
- I support and will fight for Cruise Ship Gambling here in Hawaii
- I will fight for more Federal money to encourage Green Tourism here in Hawaii
- I will fight for more Federal Funds for Drug User Treatment Programs
- I pledge to listen to all your concerns as your Congressman

In closing, I believe if you pick the same people over and over again and expect different results, it's unrealistic. I hope on November 30, 2002, you will cast your vote for Dr. Brian G. Cole, a new face for the Democratic Party.
